Komodo CS

Komodo CS is an innovative wooden absorber panel with an acoustically optimised perforation pattern with a discreet modular installation system. This modular system uses four different wooden cores: an Absorber, Diffuser, Bass Trap, and Speaker options. Each provides distinct functionality while keeping the same design. The acoustic covers can be easily swapped or replaced.

Absorbers remove energy from incoming sound waves, reducing reflections and overall reverberation time. Diffusers scatter energy over a wide area, creating more homogenous sound fields. Bass Traps reduce low frequency room modes, diminishing the effect of standing waves. Speaker cores seamlessly integrate in-wall speakers. Discover our Cinema Series, a flexible range that can be adapted to a wide variety of environments and is tailored into beautiful, timeless, multifunctional designs.

Features

Komodo CS + Absorber Core
Absorption Range: 500 Hz to 8000 Hz
Acoustic Class: C | (aw) = 0,65
_____

Komodo CS + Bass Trap Core
Absorption Range: 100 Hz to 125 Hz

Purpose

- RT reduction
- Flutter echo control
- Reducing excessive reverberation
- Improving speech intelligibility

Recommended for

- Home Cinemas
- Media Rooms
